

# Erasmus+ KA2 2018-2020

Ballard School, Hampshire, UK & ITC Cattaneo, Pisa,  
Italy.

*This project addresses:*

\***social inclusion**- encouraging greater dialogue  
between young and old; encouraging lifelong  
citizenship.

\***digital era practices.**

\***social and educational value of European heritage**-  
celebrating culture and diversity.

Erasmus +  
Better Together:  
Opening Young  
Minds to the  
positive re-  
branding of age.

## **Erasmus+ 2018-2020**

*Establishing links with  
older citizens:*

The objective of the project is to bridge the gap between young and old and expand new links.

\* To compile data and research for discussion- residential or old age care homes were visited and residents were asked for their opinions and thoughts about age.

- Watch the following you tube clip from a popular British television programme called *Old people's Home for 4 year Olds*.

- Consider this:
  - \* *Do you think this kind of social experiment tells us any thing useful about society- if so, what?*
  - \* *Why is this type of television programme so popular?*

Erasmus+ 2018-  
2020

- Questions to ask and encourage discussion on:
- 1. Was there an equivalent to the internet in your youth?
- 2. How old do you feel in yourself- in your mind and in your heart?
- 3. Do you think age defines who you are now?
- 4. Who were your icons when you were aged 16? Aged 25?
- 5. And now at your current age, who are your icons and why?
- 6. Which do you think is harder- to be a young person in 2018 or to be an older person in 2018- can you give reasons for your answers?

Erasmus+ 2018-  
2020

- This questionnaire is designed to be used with older citizens from a broad range of backgrounds and those with and without age-related conditions such as dementia.
- In order to truly assess the findings it also needs to be addressed to the younger participants in the Erasmus project- then the results shared, compared and reported via the shared platform.
