Emergency Closure in the Event of Bad Weather

General

In the event of severe weather, the School will be open for all pupils and staff who can get here safely. It is emphasised that it is each person's responsibility, staff or parent, to decide what is safe.

The School will only be closed if the weather is so bad that it is inconceivable that a significant number of personnel can get to work safely or whether it is safe to be on site near buildings and trees– this judgment, based on prevailing weather conditions, road conditions and weather forecasts, will be taken by the Head in consultation with the Deputy Heads, Bursar and Director of Facilities.

The School Caretaker will provide an update on the current weather conditions at school during a weekend or closure period to the Director of Facilities, who will report any concerns to the Head allowing decisions to be made.

When School is Open

Staff who are able to safely make their way into school, are to sign in at the School Office, and then to move to the Heritage/chapel Room for briefing. All pupils should make their way to the PAC.

At the briefing, an alternative curriculum will be formulated and communicated for the day, although it is likely that the period up until morning break (and possibly beyond) may not necessarily take the form of formal teaching and learning, as it will be based on the numbers of pupils and staff who have arrived safely into school and likely to limit outside lessons and movement.

Parents should be regularly informed (bulletin and school website) that:

“In the event of severe weather, every effort will be made to leave the school open to allow pupils and staff who can safely get into school to do so. It is emphasised that it is each person’s responsibility, staff or parent, to decide what is safe.

In the unlikely event of it not being possible to open, any decision to close the School due to bad weather or any other emergency will be communicated by iSAMS text message and email. If particular school buses are unable to run, we will notify parents by iSAMS text message and email. The School website will also be updated with the latest information. Pupils should be prepared to access school work set by their teachers using Teams and OneNote (Years 3 to 11) and Email (Years N to 2).”

The above plan allows for the communication as far as Deputy Heads. From this point they are asked to initiate a cascade system of communication to ensure all members of staff are informed. Staff are asked to ensure that they maintain up-to-date contact details for those persons they are required to call. Up-to-date contact lists are held in the School office.

Equally important is that the staff, and parents are to be informed when the School is to be re-opened (once known).
